

**34-m BWG Ka-band Upgrades Task – DSS-34 Downtime Readiness Review (1/24/2005) Action Item List**  
**As of: February 08,2005**

<b>RFA / AI</b>	<b>Submitted by</b>	<b>Concern</b>	<b>Recommendation</b>	<b>Assigned To</b>	<b>Due Date</b>	<b>Response Date</b>
<b>1</b>	John Murray	What are the new power requirements for [the] new waveguide cooling skid	Asim to verify power requirements	Asim Sehc	02/04/2005	
<b>2</b>	Chuck Klose	Make sure that DSS-34 is scheduled to perform all pre-installation work		John Sosnowski	02/04/2005	
<b>3</b>	Michael Coluzzi	Scheule submitted does not include 4 <sup>th</sup> order pointing model implementation, sufficient time for SPTs, as well as idler wheel bearing replacement.	Please update schedule	Watt Veruttipong	02/04/2005	02/04/2005
<b>4</b>	Dennis Buck	SPTs and Engineering Demo Tracks cannot be adequately scheduled and completed within the current downtime. 4 <sup>th</sup> -order model [and] azimuth track level compensation (separate task for blind pointing) could not be undertaken without schedule extension.	Extend downtime by 2 weeks in accordance with Task request	Gene Burke	02/04/2005	
<b>5</b>	Jim Buckley	Need to schedule and support an Operation Commitment Review (OCR) at the end of the DSS-34 downtime period and prior to return-to-service for DSN operations.		Jim Buckley / Chuck Klose	02/04/2005	01/26/2005
<b>6</b>	Sherill Hampton	All of the BWG antennas that have the X/X/Ka feedhorn need to be using the same couplers when performing the zero-delay device measurement. If they do not, the result will be a ranging bias between stations.	Ensure that the complex maintenance personnel are all using the same ports to measure the translator's delay for X- and Ka-band	Michael Coluzzi	02/04/2005	
<b>7*</b>	Jim Buckley	Need to complete the SWTA for the LNA Instrumentation Software by the end of the week		Jan Loreman	01/28/2005	
<b>8*</b>	Jim Buckley	Determine whether an OTP is required or what test documentation will be used		Micheel Coluzzi	02/04/2005	
<b>9*</b>	Gene Burke	FSP System Cables may not be available to support system testing	Bob Sniffin should follow-up on getting mod kit from Les White	Bob Sniffin / Les White	02/04/2005	02/08/2005

\* RFA's marked with an asterisk were extracted from the meeting minutes.
